“In Q1-FY24, we delivered 24% growth in revenue and 54% growth in EBITDA on a YOY basis despite the visible slowdown in the IT sector. As we move forward in our journey to reach USD 500 Million in revenues by 2030, we announced the acquisition of Solveda. Solveda will add another market niche for us with its capabilities and strength in the E-commerce vertical especially for the B2B segment. The E-commerce space is witnessing significant global technology spend as physical stores add digital to their distribution channels. In addition, as we grow our business we realize the importance of contributing to a greener-cleaner world and towards this objective we are adding sustainability as also one of our major goals.”
